**KATHRYN BARGER**  
SUPERVISOR, FIFTH DISTRICT

Dear Sir/Madam,

Thank you for reaching out to my office with your concerns about the continued power outages for Southern California Edison. My staff is aware of the previous outages that took place on August 31<sup>st</sup> and September 1<sup>st</sup> and that some parts of the Altadena community, including the Meadows, are continuing to face these challenges.

It is alarming that these prolonged outages are occurring during one of the most blistering heatwaves of the year. I am dismayed and concerned for those having to endure prolonged exposure to this heat without access to power and am especially worried about the most vulnerable residents of the community.

It has also come to my attention that residents are not receiving adequate and necessary communication from Southern California Edison regarding this situation. Under no circumstance is it acceptable for the community to not be able to get ahold of a public utility provider. Aside from remedying the outages my expectation and direct request to Southern California Edison (Edison) is that they promptly respond and communicate directly with the community.

Although the County does not have direct oversight over Southern California Edison, which falls under the jurisdiction of the California Public Utilities Commission, my office is pursuing every possible avenue to resolve this matter in the short and long term. My concerns have been raised to the President and CEO of Southern California Edison.

Please continue to inform my office of any persisting power outages so that we can continue to assist with resolving these crises.

Sincerely,

KATHRYN BARGER  
Supervisor, Fifth District
